ROE 17.4%	ROCE 15.0%	Net Profit Margin 8.8%
D/E 1.7	Revenue CAGR 5yr 5.8%	FCF (Cr) -11,245

Pros

- Earnings per share growing above 15% CAGR indicates strong earnings quality and compounding
- Revenue growing slower than profits shows improving operating leverage and scale benefits

Cons

- Debt-to-equity ratio of 1.66 is elevated for a non-financial company and warrants monitoring

Capital Allocation: Growth Funded by Debt
